

# Potens IT Services - Data Privacy Policy

## 1. Purpose and scope

Effective date: 1 January 2025. This policy applies to all employees, contractors, interns, and systems that process personal data on behalf of Potens IT Services and Consultancy Pvt. Ltd.

Personal data includes identifiers, contact details, employment records, client project metadata, and technical logs that can be linked to an individual.

## 2. Retention and minimization

Data must be collected only for defined business purposes and retained no longer than necessary. Client contract records are retained for a maximum of seven (7) years unless a longer period is required by law or an active dispute.

Employee HR records are retained for seven (7) years after separation unless regulations require otherwise.

## 3. Security and training

All employees must complete annual data protection training by 31 March each year.

Security incidents must be reported to the Data Protection Officer within twenty-four (24) hours of discovery. Critical incidents require immediate containment steps documented in the security runbook.

## 4. Data subject rights

Data subjects may request access, correction, or deletion of personal data within thirty (30) days of a verified written request, except where legal obligations require retention.

Deletion requests for client data require approval from Legal and the account owner.
